Overview

usemobilebanking is designed with the vision of promoting mobile banking and digital wallets to people. The motive is to teach mobile banking services, top up and more through our guides and tutorials. And I was responsible for the entire design process with the help of Creative Head, and the team.

Role: UI Design
Team: FTsoft | IFEAT
Website: usemobilebanking (https://usemobilebanking.com/)

The Challenge: Reach out to End-User

The only challenge is how to reach out to the end-users.

Solution: Media Coverage
